

NOTHING LIKE A GOOD FRIEND

*Wiggle and jump put your hands in the air
Now reach up for the sun
Shake it all about dance and let it out
Get together and have some fun
(x 2)*

You're my very best friend we've got so much to say
That's why we should be having play dates everyday
Making up crazy stories about magical things
Dancing by the moonlight using feathers for wings

You make me happy when I'm feeling sad
You calm me down if I start to get mad
I never want our sunny days to end
You're my best friend

Wiggle and jump.... (x 2)

You're my very best friend we've got so much to do
My day is extra special when I spend it with you
Even if you're slightly grumpy or you're in a bad mood
I know you're probably hungry and you just need some food

You're kind of kooky and all over the place
If makes me happy just to see your sweet face
I never want our sunny days to end
You're my best friend

CHORUS

There's nothing like a good friend
There's nothing like a good friend
There's nothing like a good friend
Somebody out there who is looking out for you

We're your very best friends we like to jump and climb
We get the blame for mostly everything all the time
If it breaks or if it's broken it was probably me
Or you or him or all of us because we are three

But we're the fastest and we're really strong
If there is trouble then you'll want us along
Even though we'll drive you round the bend
We're your best Friends

CHORUS

Yo what's up everybody clear the dance floor now
Daisy's in the house I'm gonna show you how to
Trot and pop and rock and move your feet
To the sound of the funky phat treehouse beat

Gather round in a circle like its circle time
Take a turn in the middle as you dance to the rhyme
Shimmy to the side take a break then glide
There's nothing like a good friend

CHORUS

Somebody out there
Somebody out there
Somebody out there who is looking out for you
